

ImageHoster webapp UserLogin seq

this alt frame is used to show success/failure cases of user login.

```
graph TD
    A[User Login] --> B{Successful?}
    B -- Yes --> C[Redirect to /images endpoint]
    B -- No --> D[Return user/login view again]
```

If user login is successful ,  
then redirect to /images endpoint  
else  
return user/login view again
